

Request for Proposals #17-1722
Metropolitan Tulsa Transit Authority
Janitorial Service Amendment #3
July 21, 2017

This amendment provides additional information to firms responding to RFP #17-1722 Janitorial Service issued by the Metropolitan Tulsa Transit Authority (Tulsa Transit).

Purpose: This amendment answers question posed by potential proposers and clarifies information about the project.

Questions:

- 1. On the previous amendment an amount of \$6,295 per month was listed as the amount the present janitorial contractor is receiving. Does that include one (1) day porter or two (2) day porters. Also does it include a day porter for the Sunday schedule?**

Keep in mind that the amount the previous contractor is paying does not include all of the items in the current document. Please examine the document closely to ensure you are taking into account everything Tulsa Transit expects from a contractor with the new contract. The current contract includes only one (1) day porter. The new contract will include two (2) day porters and a day porter for the Sunday schedule.

- 2. Is stripping and waxing the tile floors and carpet cleaning for the Call Center to be included in this price?**

It is preferred that your price is all inclusive, but provisions are made on the price sheet for "extras" that could include these two items. You may submit a separate price for these in that section. Anything not specifically listed as an extra that is requested in the scope should be included in your monthly price.

- 3. The contract term was not specifically listed in the body of the document.**

The contract term for this contract will be one year with 4 additional option years.
